**Notes:** Grantee will provide at least one basic tier I outlet and free access to full range of I-NET services (including physical connection, capability to transmit and/or receive and any needed interface equipment) at no charge to the District in all public schools, educational institutions, police and fire stations, public school buildings used for municipal purposes, hospitals, health clinics, and municipal agency offices which are under the control or ownership of the city. No upstream channel capacity is provided. Franchise is not exclusive but if more favorable provisions are granted to a competitor, agreement will be modified to ensure equity of treatment. Grantee must provide an apprenticeship program designed to provide DC residents, particularly unskilled and semi-skilled minority youth with job skills, job opportunities, and upward mobility, both in cable television industry and grantee's workforce. District may audit company to recompute franchise fees within 12 months. If amount of fees due is increased by more than 5%, cost of audit will be paid by cable operator, plus interest on the recomputed amount. In all matters of dispute relative to franchise, technical, financial, legal, or other consultants may be hired by the regulatory office (as mutually agreeable to the cable operator, otherwise arbitrated) with the cost borne equally by both. Differences between franchise provisions and current terms of operation: 4 municipal channels and 2 public channels (still to be resolved); no local origination to speak of; separate company set up to purchase video production equipment for advertising revenues and because it's not local origination equipment, public access cannot use the field production equipment or the better editing facilities; studio opened 1.5 years late; equipment (some, not all) only replaced once during franchise and not maintained; in spite of the lack of either municipal or LO programming time in the studio, public access is still restricted to 1/3 of the available time; pieces of the I-NET trunk were laid, but the municipal pieces which were laid did not connect with one another, no I-NET capability was ever made available (yet to be settled); basic tier one outlets to municipal institutions still being installed.

**City/County:** Tampa

**State:** FL

**Subscribers:** 60,000

**Local Operator:**

**Parent Company:** Time Warner

**Franchise Fee %:** 5

**Annual Capital Support:** \$100,000.00

**Facilities/Staff/Equipment:** Cable company operates center with three studios and spends \$450,000 annually in operating costs. Public access support comes from company. Original \$1 million capital plus \$500,000 per year operational; city kicks in about \$120,000 per year operational (at city's discretion). Franchise fee of about \$1 million/year goes to city. Government access uses about \$600k per year operational and has \$2.5 million plant. City provides about \$180k annual operational to educational access and have supported about \$300k over the 15-year franchise for capital requests. Educational operational support is completely at city's discretion. No Time Warner money supports G or E (separate organizations from which P is a company division).

**City/County:** East Peoria

**State:** IL

**Subscribers:** 56,694

**Local Operator:**

**Parent Company:** TCI

**Franchise Fee %:** 5

**Annual Capital Support:** \$0.00

**Facilities/Staff/Equipment:** Access receives 40% of city's franchise fees. 20% is listed in the franchise, which is paid directly to us from TCI in a yearly amount which is based on an estimate for the upcoming year. The remaining 20% is provided through the city by an ordinance which requires a two-year advance notice, if the city decides to revoke it. The amount through the city is paid in six month payments based on actual TCI revenues. Capital support consists of a total of \$60,000: half at the beginning of the agreement, half after July 1st. F/S/E consists of system intertie equipment (reverse feeds from our studios and the city hall).

**Notes:** 5 channels for combined PEG [breakdown unspecified]. I-NET is data only at this time; used by city government. The funding base for this franchise allows for a pass-through to cable subscribers for a period of two years, after which time the city and our organization need to come up with funding solutions. The MSO will not fulfill its capital obligations if we are not financially solvent. The MSO is obligated to upgrade the system to fiber by the last year of the franchise. The term of the agreement is four years.
